

NAEP: If you received a bill for your dues in your mailbox at SPEA, it is legitimate. There was some kind of miscommunication, but it turns out that the student (already heavily discounted) rate is \$40/year. This membership includes the journal published by the NAEP, which you probably also got in your mailbox, invites to all NAEP conferences, and log-in name/password to the website which has many networking opportunities.

Otherwise, we are still a Student Chapter of NAEP, but that does not include any of the individual benefits listed above.

\*\*\*If you'd like to remain a member of NAEP (for \$40) please bring your payment information - including the bill for dues - to the next EMA meeting and we'll send them all in at once.

Career Development: Please consider spending some time at the Experiential Exchange Conference this Thursday and Friday. It is a great way to network with your peers, which is just as important as networking with anyone else. On a more focused note, we will be compiling a list of EMA members' experience to facilitate internship and job hunting.

\*\*\*If you have experience in any field related to Environmental Management, or other environmental issues, please send an email with the following information to [iuema@indiana.edu](mailto:iuema@indiana.edu)

Your Name  
Place/Organization of your experience  
Brief description of responsibilities  
Amount of time you worked there  
Your contact info (email, phone, etc.)

We will be putting all this together and distributing it so that we can help each other.
