Call for Proposal

Program Information

General Interest Sessions (60 minutes)

General Interest Sessions are scheduled throughout the conference. These programs are chosen in large part because of their relevance to the conference theme and incorporation of the core areas. General interest sessions are designed to be interactive conversations between presenters and participants.

Roundtable Discussion (60 minutes)

Roundtable discussions allow for in-depth conversations related to current events or developing trends that relate to the conference theme and/or the core areas. Roundtable programs are not eligible to receive any audiovisual support, as these are meant to be discussions, not formal presentations.

Program Tracks

Some topics are better discussed among gender specific audiences. Other topics are best suited for a forum with both male and female participants. Please identify if you prefer a gender specific audience or if you prefer an audience of both male and female participants for your preference for your session.
